MDD

Re-thinking corporate reporting

Management Digital Data AG is committed to delivering a reliable, scalable, and highly customizable platform, addressing client demands while embracing innovation to optimize performance and efficiency.
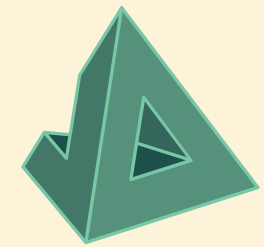

We simplify the corporate reporting process for companies of all sizes.

About MDD

We are an independent Swiss system and software developer specializing in digitalizing all kinds of corporate reports. With more than 20 years of experience, we accompany our clients as they establish their digital processes.

The MDD Platform, a Software-as-a-Service solution, optimizes your corporate reporting processes and covers various output formats; online as a website, as a PDF, or as an (i)XBRL document.

We are the leading partner for digitized corporate reporting.

Why MDD?
Pioneering spirit, innovative and modern.
